

# Safe Systems of Work

TASK: Snow clearing and gritting

OF POTENTIAL HARM: FM Technician

**EQUIPMENT NEEDED:** PPE thermal gloves with good grip, clothing, non-slip safety boots, suitable tools, signage, cordon barriers and a mobile phone

**PLEASE NOTE:** As each client location and their safety policy differs, it is important to thoroughly familiarize and become competent at each before working. This provides a guide. Not all steps in the process below may be applicable.

#### **STEP BY STEP PROCESS:**

- 1 Park vehicle in designated area
- 2 Report to reception / main security office / gatehouse
- 3 Attend any inductions as required by client prior to any work being undertaken
- 4 Assess area in which you will be working and the conditions around before commencing
- 5 Remember you are 'Lone Working' and take appropriate safety precautions
- 6 Ensure you are familiar with the type of snow clearing equipment and how to use before attempting to use.
- 7 Should you feel you need assistance, obtain it
- 8 Assemble equipment required as described above, including PPE
- 9 Remember and use your manual handling training
- 10 If required, cordon off your working area.
- Display warning signs about the hazard of ice, slippery conditions and you working in the area.
- 12 Be vigilant for hazards, including people passing, risk of skidding vehicles, etc.
- 13 Ensure work area is safe when finished
- 14 Clean equipment and check for safety when finished
- 15 | Return equipment to store and store correctly when finished
- 16 Wash hands
- 17 Record works in register
- 18 Sign out at reception / main security office / gatehouse
